Assistant Professor

The Department of Chemical and Biological Engineering at Iowa State University seeks candidates for a tenure-track faculty position at the Assistant Professor level to join 27 collegial, supportive and diverse faculty. Candidates will be expected to develop and teach undergraduate and graduate courses, establish and sustain strong research programs in their area of expertise, and provide service to the department, university and broader profession. The area of expertise is open. The department is especially strong in biorenewables, nanomaterials, bioengineering and computational fluid dynamics and simulation.

Iowa State University is classified as a Carnegie Foundation Doctoral/Research University-Extensive, a member of the Association of American Universities (AAU), and ranked by U.S. News and World Report as one of the top public universities in the nation. More than 36,000 students are enrolled at the university and are served by more than 6,000 faculty and staff (see www.iastate.edu). Ames, Iowa is a progressive community of 60,000. Located approximately 30 miles north of Des Moines, Ames has been ranked #1 of the 10 Best College Towns for 2014 by Livability.com; and #2 of the Top 20 College Towns by the American Institute for Economic Research (see www.visitames.com for more Ames information).

Iowa State University is an equal opportunity employer committed to excellence through diversity and strongly encourages applications from all qualified individuals, including women, underrepresented minorities and veterans. ISU is responsive to the needs of dual career couples, is dedicated to work-life balance through an array of policies, and is an NSF ADVANCE institution.
