Spring 2016 Engineering Undergraduate Research Assistant Position

Description
Engineering undergraduate research assistants will work with faculty, staff, and graduate students in the Department of Human Development and Family Studies to observe children’s engineering behaviors in early childhood education classrooms.

This position will require the engineering undergraduate research assistant to dedicate approximately 10 hours per week from February 1 – June 30, 2016. Must be available for classroom visits on Tuesday, Wednesday, and Friday mornings. Training will begin in February 2016.

Qualifications
For consideration, candidates must possess the following qualifications:

- Minimum GPA: 2.80/4.00 (3.00+ preferred)
- Minimum of sophomore-level classification (junior-level and higher preferred)
- Strong interpersonal skills
- Previous experience working with young children is preferred but not required
- Pass state and federal background checks

Responsibilities
Engineering undergraduate research assistants will:

- Participate in training led by HDFS faculty
- Collaborate with other members of the research team, including faculty, staff, graduate students, and undergraduate students

Compensation
Undergraduate research assistants will be paid $10 per hour for time spent completing training, traveling to and from classrooms, observing in classrooms, and assisting with data entry and analysis.

How to Apply
Send a resume and the names of two references to Dr. Monica Lamm (mhlamm@iastate.edu). For guaranteed consideration, materials must be received by 12:00 pm (noon) February 12, 2016.

For more information, contact Dr. Monica Lamm by email (mhlamm@iastate.edu) or phone (515.294.6533).
