

## Request to Waive a Prerequisite/Corequisite

Department of Chemical and Biological Engineering, Iowa State University

**General Statement:** The primary purpose of prerequisites and corequisites is to ensure students possess the necessary skills to be academically successful. However, there may be exceptional cases where students acquire the requisite skill or knowledge through other means. This request form is designed to serve as a record of official approval for any prerequisite or corequisite courses that are waived for CH E courses.

**Instructions:** Students requesting a waiver should fill out the items listed below. All requests must be discussed with your assigned Academic Adviser and their signature obtained. You will then need approval from the CH E instructor. Appropriate documentation to support any acceptable waiver must be attached to this request and kept on file. Note that attempting and failing a prerequisite course is not a demonstration of competency, and advisers will reject these waiver requests without instructor review. Instructor decisions are final and advisers will reject subsequent waiver requests in the same semester for the same course without instructor review.
